

DEJAN MITROVIĆ

JUNIOR SOFTWARE DEVELOPER

Experience

Project role - Software developer

The improvement of first version of the Elanwave's website. The idea for the website was for it to be interactive, in the sense that the company needed a way to communicate with clients and future employees and to generate a strong online brand identity. Also the website had to be esthetically pleasing, follow the company's branding and to be user friendly.

Project role - QA Engineer

The main goal of application is time tracking of employees and calculation of company income. Each employee in the system has its own timesheet to track time spent on the ongoing projects. Each manager in the system is responsible for approving or rejecting employee's timesheets.
